FDA STATUS

Not FDA-approved for any use. Adamax is a research compound with no established evidence base and is not reviewed by FDA.

10 mg vial — units to draw (U-100 syringe)

Water added	mg/mL	500 mcg	1 mg	2 mg
1 mL	10	5 u	10 u	20 u
2 mL	5	10 u	20 u	40 u
3 mL	3.33	15 u	30 u	60 u

"—" means the draw exceeds one syringe at that concentration. Interactive calculator for any combination: thelastpeptide.com/peptides/adamax

Adamax dose figures are commonly discussed reference information with no approved labeling unless stated above. The Last Peptide is an educational reference and sells nothing. Dosing figures shown here are commonly discussed reference information, not prescriptions or medical advice. Many peptides listed are not FDA-approved. Talk to a licensed clinician before using any peptide.
